Seamless Sharing for Maximum Impact

Local Marketing Software offers One-Click Sharing buttons, making it easy for users to invite friends via email or share links across popular platforms like Facebook, LinkedIn, WhatsApp, and even through a QR code. This effortless sharing turns customers into natural advocates, allowing them to spread your message widely, driving more traffic and conversions.

It's not just about expanding your network but empowering it to amplify your brand's message.

Incentivized Advocacy: Motivate Users to Share

Boost engagement with Incentivized Advocacy. Customers are more likely to share when they receive rewards, badges, or points. This creates a feedback loop where users eagerly refer others, knowing they will benefit. As a result, your brand sees organic growth through increased advocacy and participation.

Customizable Templates and UGC Showcase

Customization is key. With Customizable Templates, businesses can maintain consistent branding while offering users the flexibility to personalize their invites. Whether shared via email or social media, your messaging remains cohesive.

Additionally, the UGC Showcase feature encourages users to create content by highlighting customer-generated posts, adding social proof and fostering trust within your community.

Multi-Platform Support and Analytics

No matter where your users are, Multi-Platform Support ensures they can easily share and promote your brand across email, social media, or via QR codes.
